123KIDSPAY payment error- IMPORTANT!

We have been informed this week that a number of payments for Breakfast/After-School club for the AUTUTMN did not go through correctly where the GoCardless system didn't take the payment immediately but placed them in a 'pending customer approval' state until the parent completed a form. These payments will be cleared on the system next week and so you will see the new outstanding balance, including the Autumn arrears amount.

Mr. Davis, who manages the wrap around, will contact the families affected directly next week and arrange a payment plan as we understand that you may not be able to pay off the arrears in a single amount. The issue has now been resolved so that you do not have to undertake a second manual approval step, although existing parents will need to add their bank details to the system again (just once) to initiate the process. Our apologies.
