

Hi Year 4,

Today is the last day, and we will be focussing on this week's Mrs Wordsmith words. This week we are looking at 'Sad' words, although hopefully you are all very excited for the summer holidays!

Please write a sentence for each word; for example, 'His friends tried to cheer him up as he was feeling glum'.

Desolate – miserable, depressed and lonely; how you feel when you lose everything and are all alone.

Glum – sad or gloomy; when you feel like you're walking around with a little black cloud over your head.

Heartbroken – extremely sad or miserable; when you sob on the sofa eating ice cream all day.

Inconsolable – very unhappy or broken-hearted; like feeling so sad it's impossible to cheer you up.

Melancholy – depressed or gloomy; like someone who walks around despairing about everything.

Wistful – sad, longing or nostalgic; like the sad feeling you get when you look back on good memories.

I would also like you to write a paragraph answering the question: Which season is best – spring, summer, autumn or winter?
